**Texen awarded EcoVadis Platinum status for its CSR strategy**

**This year marks a turning point for the Texen group, rewarded by EcoVadis today for its phenomenal progression on corporate social responsibility goals. This is a mark of the whole group's commitment and the confirmation of its strategy, which serves a clearly defined mission.**

Silver in 2020, Gold in 2021, Platinum this year..."This reward is no coincidence, it is the result of extensive teamwork of which we are extremely proud," explains Rémi Weidenmann, Texen's Managing Director. "CSR permeates every level of the group today, in our daily work. Our CSR strategy is built around a clear mission: transforming virtuous materials into positive experiences in a sustainable fashion. It targets the United Nations sustainable development goals and is based on concrete results allowing quantified actions."

**CSR performance indicators**

The transversal work of Texen's teams on environmental considerations made for significant improvements. On this criteria, EcoVadis awarded Texen a score of 90/100, up from 80 a year ago. This was achieved through energy and resource management thanks to efforts on water usage, new industrial models and eco-design, for example, significant elements in an approach aiming at constant improvement.

The group also registered strong progress when it comes to sustainable purchasing, climbing 20 points to achieve a score of 80/100. This was achieved thanks to the interaction between environmental protection and ethical sourcing initiatives.

A player in the ecological transition for packaging, these concrete results demonstrate Texen's commitment to its mission. With this result, Texen joins the top-scoring 1% of companies in its sector.
